PROJECT SUPPORT APPRENTICE

Upon leaving school I knew that I didn't want to go straight to University.....I wanted something more, something that could teach me crucial life skills and give me real life experience.

I had been volunteering at YLF for a while when they offered me the opportunity to become their Project Support Apprentice! I had also just been offered a place in London studying business management on a degree apprentice course so the two went together perfectly.

Being an apprentice at YLF has immersed me in a world I could have only dreamed of....since starting, I have been involved in Celebrity Charity matches, public speaking in schools & businesses and aiding with the design of promotional materials and marketing amongst much more.

This apprenticeship has developed me both personally and professionally and made me more confident in myself and it is due to this that I have been able to achieve top marks in my first year at university.

The support and guidance I receive is like nothing I have ever experienced and I feel like I have won the lottery being an apprentice here!

"YLF ISN'T JUST A PLACE TO WORK...IT'S A WAY OF LIFE"
